

A Music Primer for Schools

By Reginald F Dale, John Troutbeck

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. An excerpt from the INTRODUCTION. 1. Sound is the effect on the ear of a wavelike (undulatory) motion of an elastic medium, caused by the vibrations of an elastic body. 2. When the vibrations occur at regular intervals, and the waves are therefore of equal length, a musical sound is produced. 3. Musical sounds differ from each other (independently of their duration) in intensity, character and pitch, - determined respectively by the extent, form, and frequency of the vibrations. 4. Intensity, which depends on the extent of the vibrations, regulates the loudness or softness of a sound. 5. Character, which is also called quality or complexion (French timbre, stamp ; German klangfarbe, sound-tint), has already been said to depend on the form of the vibrations. Difference in character enables us to distinguish between voices and instruments, different kinds of voices, and different kinds of instruments. 6. The human voice may be divided into two classes, each of which may again be subdivided, as follows: - 1. Female or high voices (including those of children of both...

Reviews

This pdf is wonderful. It is definitely simplified but excitement from the 50 percent in the ebook. You wont sense monotony at any time of your time (that's what catalogues are for relating to should you request me).

-- Jaqueline Kerluke

I just started looking at this pdf. It can be rally fascinating through studying period of time. Its been printed in an extremely basic way and is particularly only following i finished reading through this publication where in fact altered me, change the way i really believe.
