Seventeen year old Leah Clark once roamed Whetstones halls without direction, as a loner against ludicrous lifestyles. While other students rehearsed their roles living ritualistic reputations, she often acted on impulses by skipping lines, and rebelling against the rubric. Unfortunately, a passion for politics wasnt enough when it came to scholastic survival. Before the high school seniors grades reached rock bottom, her mother flipped frantically through the yellow pages, seeking professional help. Luckily a local shrink was able to diagnose her psychological symptoms, and pinpoint a probable solution. However, Leah couldnt help feeling skeptical as an unknown antidote was filled in her name. Never in her wildest dreams did she expect a few tablets to pave her rocky path from the inside out. From that point on, ingesting every dose was a breath of fresh air as Leah rejoiced in relaxation after unlocking an open minds initiative using a princes philosophy. Just as things were beginning to turn around, the magical medication falls into the wrong hands, putting Leahs entire alter existence in jeopardy. As if chances for survival werent slim enough, rations were running short as doctors decided to discontinue further distribution behind enemy lines.
