

A Course in Interpolation and Numerical Integration for: The Mathematical Laboratory (Classic Reprint)

Filesize: 2.07 MB

Reviews

It is an awesome book that we have possibly go through. It is actually writer in straightforward words and phrases and not confusing. It is extremely difficult to leave it before concluding, once you begin to read the book.

Forgotten Books, United States, 2016. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Course in Interpolation and Numerical Integration For: The Mathematical Laboratory The present work is intended for the use of students who are learning the practices of Interpolation and Numerical Integration. The advantages of a practical knowledge of this part of Mathematics are so obvious that it is needless to insist on them here; and these subjects form an important part of the course in the modern Mathematical Laboratory. There are, however, so many claims on the time of students that the extent of this course, as of all others, must be kept within narrow limits: and it has therefore been necessary to restrict the treatment to the most central and indispensable theorems. A large number of numerical illustrations and examples has been given of a kind likely to occur in the applications of Mathematics. My thanks are due to Professor Whittaker and to my colleague, Mr E. M. Horsburgh, M.A., B.Sc, Assoc. M.Inst. C.E., for their valuable criticisms and suggestions. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
