(Eighth Revision) And the National Formulary (Third Edition) The Pharmacopeia. - The Pharmacopeia is a book fixing standards for the identity, purity, strength and quality, and giving directions for the preparation, valuation, compounding and preservation, of drugs, chemicals, medicinal substances and their preparations. Originally compiled in 1820 by a convention of physicians, it is revised decennially by a Committee on Revision composed of chemists, pharmacognosists, pharmacists and physicians elected by a convention, which meets each decennium in Washington, and which includes delegates from medical and pharmaceutical societies and colleges and from the medical departments of the Army, the Navy and the Public Health and Marine-Hospital Service. While the United States Pharmacopeia has been the legal standard for drugs through pharmacy acts in a few individual states, it did not become a legal standard for the United States until January, 1007, at which time the Food and Drugs Act went into effect. National Formulary. - There are many preparations extensively employed, which, from their more or less ephemeral or polypharmacal character, are not admitted to the U.S. Pharmacopeia. They include many solutions, elixirs, syrups, mixtures and pills. The same confusion in strength and consequently in dosage which attached to official medicines before the adoption of pharmacopeias applied also to these various mixtures. Thus preparations of potent substances such as elixirs of strychnine, solutions of arsenic, syrups of morphine, etc., varied in strength as made by different manufacturers, until in 1887 the National Formulary was issued by the American Pharmaceutical Association. This work contains nearly 500...
